Electric Body®

the healthy skin care

After applying Electric Body Skin Elixir to the face, the subtle energy field of the body almost doubled from 16,131 to 30,193 and the symmetry went from 62% to 92%. This dramatic increase in the energy field demonstrates a significant improvement in health and well being. These images were produced using high-voltage electrophotography taken with a Gas Discharge Visualization camera that assesses the subtle energy available for metabolic processes in the body. The larger the area of color around the body, the better the overall state of health.
